Summary

Backend Developer specializing in Laravel and web application development, with experience in in-house product development, customizations, payment gateway integrations, and add-on development. Experienced in RESTful API integration and full-stack technologies, including React.js, Node.js, Express.js, and MongoDB. Focused on building reliable, scalable, and maintainable software solutions.

Experience

Backend Developer (Laravel), WRTeam – Bhuj Nov 2025 – present

- Worked on in-house products, including eClassify and eBroker, contributing to backend development and product customizations.
- Integrated payment gateways to support payment-related functionality in web applications.
- Developed add-ons and plugins to extend existing product functionality.
- Implemented customizations to address product requirements and enhance application capabilities.

MERN Stack Developer (WFH), Jetaa Technology – Ahmedabad June 2025 – Nov 2025

- Developed and maintained responsive web applications using React.js, Node.js, Express.js, and MongoDB.
- Worked on scalable application features and backend APIs in a remote work environment.

MERN Stack Developer, HBR Technology – Bhuj Jan 2024 – June 2024

- Designed and developed the official HBR Technology website, focusing on performance, responsiveness, and user experience.
- Developed features for a fertilizer shop management system, including product listing, inventory handling, and order management.
- Integrated RESTful APIs to enable data exchange between frontend and backend components.
- Collaborated with the team to deliver functional and user-friendly web applications.

ReactJS Developer, AeonX Digital Solution – Bhuj Aug 2023 – Dec 2023

- Developed and maintained responsive web interfaces using React.js, JavaScript (ES6+), and Tailwind CSS.
- Integrated RESTful APIs to support dynamic data rendering and user interactions.
- Collaborated with backend developers and designers to build scalable, user-friendly applications.
- Optimized component rendering and UI performance to improve the user experience.
- Used Git for version control and participated in code reviews and deployment workflows.

Education

HJD Institute of Technical Education and Research, BE in Computer Science and Engineering – Kera Oct 2020 – May 2024

- CGPA: 8.24/10

Aum Vidya Mandir, HSC in 12th Science (PCM) – IFFCO May 2018 – Mar 2020

- Percentage: 62%

Projects

Prepify AI – Full Stack Web Application

- Built a full-stack platform using React.js for the frontend and Node.js/Express for the backend, with MongoDB as the database.
- Implemented features for creating interview sessions, generating AI-based interview questions, pinning questions, and requesting detailed explanations.

BarberQueue – React Native Mobile App

- Developed a mobile application featuring a token-based queue system to help reduce salon waiting times and improve service efficiency.
- Built using React Native, Node.js, Express.js, and MongoDB to support application functionality and data management.

Skills

Programming Languages: PHP, JavaScript, Python

Backend Development: Laravel, Node.js, Express.js, RESTful APIs

Frontend Development: React.js, React Native, Ant Design, MUI, HTML5, CSS, Tailwind CSS

Databases: MongoDB, MySql

Integrations & Development: Payment Gateway Integration, Product Customization, Add-on and Plugin Development

Tools: Git, GitHub

Certificates

Full Stack Web Development (MERN Stack) – Coding Shuttle Jan 2023

- Completed an intensive MERN Stack course with hands-on experience in full-stack web development.

Volunteer Experience

Leading Cadet, National Cadet Corps (Naval Wing) Aug 2020 – Feb 2023

- Developed leadership, discipline, teamwork, perseverance, and a strong sense of responsibility through NCC.
